RAREST QUEEN ELIZABETH ISSUE:

Not many collectors are aware of rarity of this stamp. In 1961 while the British Post Office was experimenting with phosphor coated, and with graphite line stamps this insignificant appearing but very rare stamp appeared. Catalogue in Scott as #357 Pa.p. this 2½ penny red stamp has a phosphor coating and is of the rare Type 1 design.

While we don't know the exact printing statistics for this stamp we do know that it has always been the most difficult of the modern Great Britain stamps to supply to our collectors. Now, through a fortunate purchase we have been able to obtain half a sheet of this rarity. Retailing up to \$80.00 in England (Stanley Gibbons #614B @ £35) our supply is Fine to Very Fine and of course never t you wish, we will sign the back of this stamp to s authenticity. Please request clearly if you w stamp signed by Herrick or not. This is a rare opportunity to get a rare stamp at almost half its market price
